

DAVINES NORTH AMERICA CUTTING TEAM DEMONSTRATION

Julie Michael

Prestige Salon Products would like to present our own Julie Michael, who has successfully achieved a position on the Davines North America Haircutting Team. To achieve this, Julie began an intense training in hair cutting in 2018 to advance her craft further.

Through her hard work and dedication, she has earned a place on the team.

Julie began working with Davines 12 years ago. She would go on to become a Regional Master Trainer, and eventually an Advanced Colour Trainer. We are so proud of Julie and look forward to new educational opportunities to our area that she brings as part of a member of this admirable team.

We are pleased to introduce the installation of the Davines North America Cutting Team. The North American Team has gone through a comprehensive education journey facilitated by the Davines partners at

The cutting experience will start with an introduction lecture followed by a live demonstration and finishing with questions and answers.
